

GOGUL JEYARAJ

Tiruppur ,Tamil Nadu

+ 91-8807614376 | goguljeyaraj04@gmail.com

Objective

Proficient in full-stack web development (MERN, Django) and UI/UX designing using Figma and CSS. Skilled in Java and Python with a solid understanding of object-oriented programming. Eager to build scalable, user-centric applications and solve real-world challenges through tech.

Education

Bachelor of Technology in Computer Science and Business Systems

October 2022 – June 2026

K.S.Rangasamy College of Technology, Tiruchengode

CGPA - 7.5 (upto 5th sem)

Technical Skills

Languages : Java, Python

Web Technologies : HTML, CSS, JavaScript, Node.js, Django

Databases : MySQL, MongoDB

Tools & Platforms : Git, GitHub, VS Code, Figma

Projects

Quiz-Wiz (Quiz Application) - HTML, CSS, JavaScript, Django, MySQL

- Designed a full-stack interactive quiz application for academic engagement.
- Used Django framework for robust admin functionality and efficient backend management.

Courier Delivery Management System - MERN Stack (MongoDB, Express.js, React, Node.js)

- Developed a real-time courier system with live tracking and status updates.
- Optimized MongoDB queries and React components for efficient data handling and responsive UI/UX.

Experience

Virtual Intern – Palo Alto Cybersecurity Network (via Eduskills) | Remote

March 2025 – May 2025

- Completed a 12-week virtual internship in cybersecurity, focusing on firewall configuration and network security operations.
- Gained hands-on experience with Palo Alto Networks tools, threat analysis, and secure network design.

Certifications

- Completed NPTEL **Cloud Computing** course with 65% – **Elite Certification**
- Completed NPTEL **Industry 4.0 & IIoT** course with 62% – **Elite Certification**
